- Risks associated with investments in financial derivative instruments for hedging purposes include credit risk, liquidity risk and counterparty credit risk.
- Risks and uncertainties associated with changes in current PRC tax laws, regulations and practice (that may have retrospective effect).
- Investing in securities denominated in a wide range of currencies other than HK Dollars in various stock exchanges around the world may be exposed to a foreign exchange/currency risk.
- Risk associated with investment in A Shares via the Shanghai-Hong Kong Stock Connect, Shenzhen-Hong Kong Stock Connect or via Qualified Investors status - may involve additional risks. Please refer to the Explanatory Memorandum of the Fund and Sub-Fund for further information relating to the Shanghai-Hong Kong Stock Connect, Shenzhen-Hong Kong Stock Connect or via Qualified Investors status.
- An investment in the Fund may involve a high degree of risk and may not be suitable for all investors.
